

Technology Enabling Life

Tokyo Electron (Malaysia) was established in September 2018 with the purpose of enhancing Tokyo Electron (TEL)'s sales and services to Southeast Asian customers. We became a directly operated subsidiary of TEL in September 2018, which led to further upgrading of its sales and service activities, giving the company a greater role to play in the regional semiconductor industry.

The emergence of IoT, AI, 5G, and ICT has led people to envision a whole new lifestyle, but this vision cannot materialize unless suitable semiconductors are made available in large quantities. That is why the role that TEL plays in society is becoming more important than ever.

Upholding TEL's corporate philosophy, Tokyo Electron (Malaysia) will keep contributing to the development of a dream-inspiring society through our leading-edge technologies and reliable service and support.

Hideki Ito
President & Managing Director
Tokyo Electron (Malaysia) Sdn. Bhd.

CORPORATE DATA

● Tokyo Electron (Malaysia) Sdn. Bhd.

Founded : September 6, 2018
 Capital : 750,000 MYR(Malaysia Ringgit)
 Number of employees : 37(as of April 1, 2023)

● Head Office

Unit No. 1-1-10, Queens Waterfront Q1, Jalan Bayan Indah,
 11900 Bayan Lepas, Penang, Malaysia.
 Tel: +604-530-7511

BUSINESS DESCRIPTION

- Service and sales support for semiconductor production equipment
- Sales and maintenance of related components and consumables for semiconductor production equipment

Semiconductor production equipment

Thermal Processing System
TELINDY PLUS™

Coater/Developer
CLEAN TRACK™
LITHIUS Pro™ Z

Coater/Developer
CLEAN TRACK™
LITHIUS Pro™ AP

Single Water Cleaning System
CELLESTA™ -i MD

Plasma Etch System
Tactras™

Plasma Etch System
Episode™ UL

Single Wafer Deposition System
Triase+™ EX-II™ TiN

Atomic Layer Deposition System
NT333™

SiC Epitaxial CVD System
Probus-SiC™
